

'changing lives, creating opportunities'

Introduction

to Community Foundation

ABOUT COMMUNITY FOUNDATION

Community Foundation is a grassroots charity, supporting people in inner city areas to change their lives, by improving their conditions and creating opportunities for people to reach their full potential.

Our Mission:

Improve the quality of life of communities living in areas of multiple deprivation.

Our Approach:

 Set up initiatives and programmes to develop communities to help themselves.

Our Philosophy:

 Give a person a fish and they will eat for a day. Teach them how to fish and they will eat for a lifetime.

Our Work Streams

- develop projects and services to address underlining issues of homelessness, social exclusion/isolation, health inequality, unemployment and under achievement.
- encourage civic participation & provide education and training to build capacity of individuals and organisations to improve themselves, their organisation and their community.
- develop targeted provisions to improve community safety, prevent anti social behaviour, domestic violence, drug/alcohol abuse and improve community cohesion and tolerance.
- Provide a range of social, education and recreational services for adults and young people.

Our Values

Community Foundation management, staff and volunteers are united by a common set of values, which are:

- Community Outreach: We engage with our communities. We do not work in isolation. We practice our problem-solving abilities, share our knowledge, and give of our time and resources to make concrete positive contributions to our communities.
- Empowerment: We choose to empower. Instead of simply providing resources, our work focuses on developing in individuals the capacity and confidence they need to change their own situations and assist their communities.
- Cooperation & Partnership: We value the opportunity to work together on common goals and toward a common purpose. We recognise and value the strengths and expertise of others and seek to work with them to improve outcomes for all in our community.
- Achievement: We value and recognise when people accomplish something they have set out to do through their skills, practice, perseverance or exertion. We value completing what we set out to do, adding value to and making a tangible difference to our community and work.
- Creativity: We value dreaming of what's possible! We value and look for innovative and different ways to do our work more effectively. We value imagination, experimentation, and

fun in serving our community.
